

Premier

Wood Epoxy

**Two-part wood epoxy filler.
Easy to use, one package epoxy
dough. Available in 8 colors.**

Premier Wood Epoxy is a specially formulated wood repair epoxy putty which when hand mixed (kneaded) to a uniform color, creates an extremely durable repair. Premier Wood Epoxy has the same density as wood and upon curing becomes an integral part of the item being repaired. It has a 10 minute work life and hardens in 15 minutes. It may be sanded, drilled, and stained after product is cured. Full cure is achieved in 24 hours.

To use, you simply clean and roughen the area. Cut off the amount needed. Knead to a uniform color and apply firmly into the surface to be repaired. Force into cracks or voids. Remove and shape to as close to required shape as possible.

knead to a uniform color

Technical Data:

WORKING LIFE.....5-10 min
SHELF LIFE.....12 months
NON-VOLATILE.....100%
SHRINKAGE.....<1%
HARDNESS (SHORE D).....75-85
TENSILE STRENGTH.....700-1000

Epoxy Paste A&B

**Two-part epoxy adhesive
for extremely strong
bonding applications**

Premier Epoxy Paste A&B is an extremely strong adhesive for gluing major breaks that require exceptional strength. The product is mixed at

a 1:1 ratio (equal parts of A and B). Initial set time is 15-30 minutes. Optimum cure time is achieved in 24 hours. Comes in a set of 2-16 oz containers.
