

# Premier

## 700 Series Touch-up Markers

*Capillary Marker with stain & finish in one package.*

**A quick one step repair for scuffs, scratches or sand-throughs.**

**The best factory marker available, simply remove the cap and use.**

*Chisel Nib*

Simply remove the cap and use...no shaking or pressing down the tip. Premier Capillary Markers contain the stain and the coating together in one package so it is not necessary to clear coat after, although a clear coat can be applied for extra durability. The touch-up markers are formulated using state of the art dyes and resins giving excellent adhesion, clarity and colorfastness. They are formulated to apply smoothly then dry very quickly (in a matter of seconds) to a very durable repair. All components are acid stable and therefore can be used under or over acid catalyzed finishes without concern of burn-out or color change.

*700 Assortment - All 24 colors in roll-out pouch*

*Easily run long edges*
